## 87. Surah Al AaLaa (The Utmost High)

There are three topics or subjects in this Surah; first and foremost ' Almighty GOD' is mandating Prophet (PBUH) to glorify Almighty God with befitting names that truly reflect HIS magnificence and flawless attributes these names are unique and incomparable with anyone or anything in this universe. Whatever is in the Universe which we observe in our daily lives has been created and run by HIM according to its destiny (Master Plan). Secondly Almighty GOD commands that Prophet (PBUH) remind Mankind of HIS message. Thirdly, disbelievers will be punished and those who accept the message and perform good deeds will be rewarded.
